This carpet must be installed in accordance with AS/NZS 2455.1:2007. Seam sealer must be used on all joins. This applies to all installations. Chair mats are mandatory under chairs with castors. This will improve appearance retention. Pile Reversal/Watermarking is a permanent condition that affects mainly cut pile carpets, especially plush pile styles. Permanent pile reversal does not affect the performance of the carpet and therefore does not constitute as manufacturing defects. Please be aware that due to variation in dye lots, sample shade may vary from actual product supplied.
