

ARC BAMBOO

TOP QUALITY

At Floorscape we combine our expertise in flooring to create perfect quality bamboo floors that give you a lifetime of pleasure. When monitoring the production process, we keep an eye on the tolerances in each production step. Our specifications ensure the usage of the best quality raw materials and finishing lacquer in the marketplace.

EASY INSTALLATION

Installing an ARC Bamboo floor is a breeze thanks to the patented world-famous Uniclic® click system. This system is highly user-friendly, quicker to install and a lot more solid than other systems.

CLEAN IN A JIFFY

Our bamboo floor is incredibly easy to maintain, which means worry-free cleaning for you. The floor's surface is completely sealed and thus bacteria and dirt have no opportunity to penetrate the floor. They can simply be wiped off, leaving a clean, hygienic surface.

ARC CHAMPAGNE | ABWCHAM

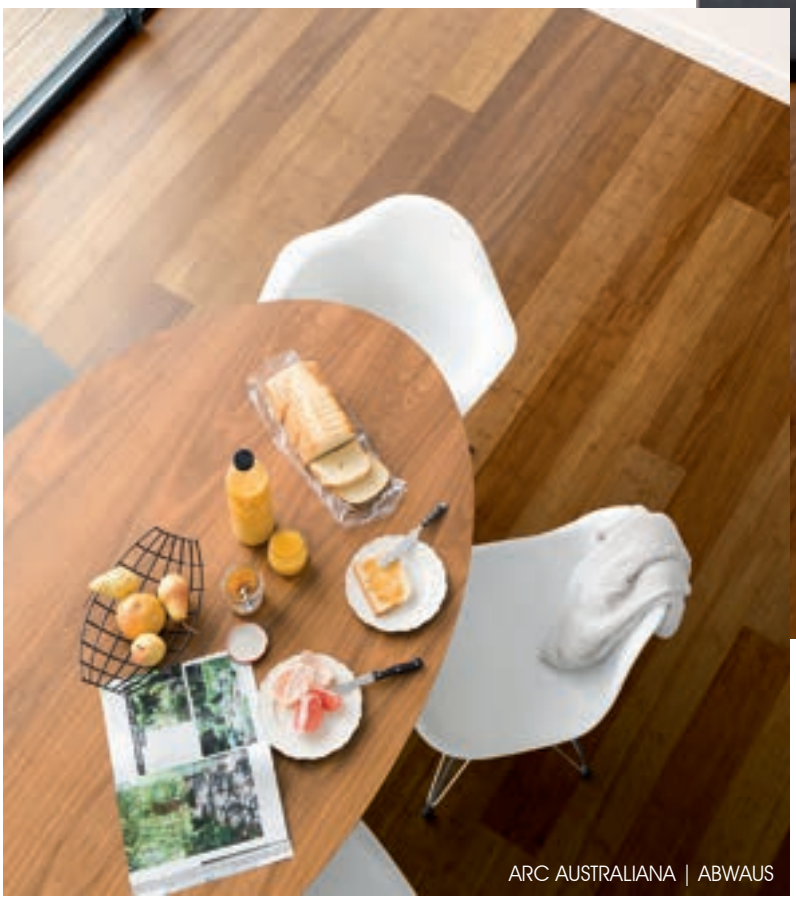

WIDEST BOARDS

ARC Bamboo's 14 mm solid boards are a generous 1850 mm long and 137 mm wide. The extra wide boards allow for a modern look & feel, as the natural patterns are shown off to their best advantage.

Just have a look at our Australiana Bamboo: thanks to the wide planks, the natural variation almost resembles the real look of the popular timber species Spotted Gum.

A HEART FOR NATURE

With ARC Bamboo we like to show respect for our natural environment. Bamboo is one of nature's most rapidly renewable resources. Bamboo grows into a mature tree ready to harvest approximately every 6 years. All ARC Bamboo products are extremely environmentally friendly.

As a company, Floorscape makes continuous efforts to minimise the ecological impacts of our products and processes.

Every day, we seek new ways to recycle, reduce and renew throughout the entire ARC Bamboo manufacturing process.

WE USE CAREFULLY SCREENED RAW MATERIALS
