| TOLERANCE:                            | Manufactured to A.S. 1385 tolerances.                                                                                                                                                                                                                                                                                      |  |
| INSTALLATION:                         | To be laid in accordance with AS/NZS 2455.1:2007<br>Seam sealer must be applied to all seams (prior to joining).                                                                                                                                                                                                           |  |
| SHADING:<br>(Permanent Pile Reversal) | Cut pile carpets have a propensity to shade. This is not a manufacturing fault. Further information can be obtained from the Carpet Institute of Australia.                                                                                                                                                                |  |
| COLOUR VARIATION:                     | Colour variation may occur between sample and production due to dye lot tolerances.                                                                                                                                                                                                                                        |  |
| MATERIAL VARIATION:                   | Product specifications may change without notice due to raw material availability.                                                                                                                                                                                                                                         |  |
