

THE ENDURING BEAUTY OF WOOL

Signature®

EUROPEAN ARTISTRY AND CRAFT

DESIGNED FOR AUSTRALIAN HOMES

Thoughtfully made with premium wool yarns, our range covers multiple weights, constructions and a myriad of colours—from deep charcoal, to lighter, mid-tone palettes.

Working closely with our global manufacturers, we're committed to enhancing the look, touch, performance, and longevity of beautiful wool carpets.

CHUNKY LOOPS AND GUTSY TEXTURES

STYLE AND PERSONALITY

High-pile loop or sisal wool carpets are a great way to bring comfort and character to a space.

While chunky loops on the top layer create a smoother surface, they also offer extra spring and cushioning in the yarn.

Soft but resilient, natural and unfussy—a Signature wool carpet can add textural interest and style to any home.

With most carpets available in 4 metre widths, they're ideal for working with larger spaces too.

HARDWEARING FOR THE HOME

TACTILE, DURABLE, BREATHABLE

A pure wool carpet adds significant value to a home, and with a little love and care, can endure all that life throws at it.

A smart and ecological choice, Signature Floors wool carpets are insulating in winter, cooling in summer, and naturally stain and fire repellent.

Wool is also a healthier choice—hypoallergenic, and low in toxins and odours.

A MORAL FIBRE

SOFTER ON THE ENVIRONMENT

100% sustainable and biodegradable, wool is much gentler on the planet than other choices in flooring.

While synthetic fibres are produced with petroleum-based chemicals, wool is natural and renewable.

Many of our high-end European wool carpets are crafted entirely of undyed wool—their organic shades the result of blending various types and tones together.

SIGNATURE FLOORS

FOR EVERY STYLE AND EVERY HOME
